**Subject:** Interview with Dr. Stephanie Seneff re. glyphosate and its damaging impact on our children, and on people of all ages  
**Date:** Tuesday, June 13, 2017 1:20:29 PM

---

Hello Esther,

I am hoping that you and the other members of OEHHA will read this excellent article in its entirety. The latter part includes an interview with MIT's Dr. Stephanie Seneff, who as I am sure you all know is relentlessly studying glyphosate and the seemingly unending damage it does to all of us and to all we need to survive.

<http://www.ageofautism.com/2017/06/mits-dr-stephanie-seneff-on-autism-explosion-vs-media-coverage.html>

It becomes more tragically clear by the day that there is no safe level of glyphosate. Please be the world leader in ending the use of glyphosate by setting the NSRL for glyphs in CA at zero!

Sincerely,

Laura Hayes  
Granite Bay, CA
